They were advised not to contact me. So took a lot of courage from

Sharmila Choudhury

I have known Ms Chowdhury as an imaging manager and deputy imaging manager before at radiology department in Ealing hospital.

Having worked under Ms Choudhury nearly 3-years in Ealing Hospital, I can attest to the strengths that would make her an ideal manager in patient care sector.

I can confirm that she has been an individual of great integrity, extremely dedicated to her work, entirely peace-loving and honest.

Her door is always open to staff, she always there to give advice, help, encouragement and equally fair to all staff.

Her excellent work is well reflected in our service to patients and encouragements that give to everyone to take part in clinical audit and professional development that rarely I seen in my previous trusts.

Sharmila Chowdhury a hard working manager who often seen tired, working round the hours to produce the necessary changes in modern radiology department.

I am very privileged to work in such a fair and friendly environment managed by such an extraordinary individual.

Yours faithfully

I have had the great privilege of working under Ms Sharmila Chowdhury, who is the Imaging Manager of Ealing Hospital Radiology Department. I have soundly obtained an experience skill and valuable knowledge under her able guidance.

She always lead by example, constantly motivating me to perform my duties with the highest standards of commitment, ethics and professionalism. As my manager she is always approachable, understanding and supportive in all issues. She is an excellent mentor (leader). She performed all her roles and duties with care and diligence, always working hard and on the go. And at times been noticed not to have taken her own personal time (i.e. lunch breaks). I look forward to another opportunity of working under her supervision if possible.

Kind regards,

To Whom it may concern

I have been very fortunate to work under Sharmila Chowdhury since she has been appointed as Imaging manager of Ealing Hospital, Radiology department.

I have always found her extremely honest, with very high standards. Sharmila is very understanding, approachable and supportive. She is an excellent manager who is very hard working.

I have never seen her having a lunch break either in her office or anywhere within the Trust.

I know that she also works late. One evening at 8:00pm. I needed to contact her urgently due to family crisis and thought I had called her home number. Instead I called her office. Sharmila was surprised to receive phone call at work so late in the day. I then realised that I rang her office number by mistake.

Sharmila has been greatly missed in the department.
